Organization Structure

# STRUKTUR ORAGANISASI

Organization Structure

## ICT Solutions

### Design and Implementation Network

- Wide Area Network (WAN)
- Local Access Network (LAN)
- Virtual Private Network (VPN)
- Fiber Optic Solutions

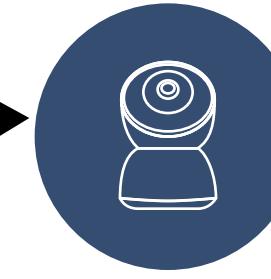

### IT Security Solutions

- Unified Threat Management (UTM)
- Firewall
- Intrusion Detection Systems (IDS)
- AntiVirus

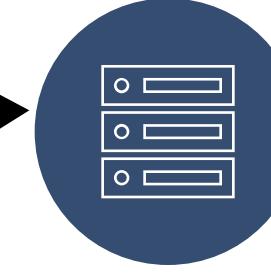

### Commander Center

- CCTV
- Paging System
- Access Door Control
- Monitoring System

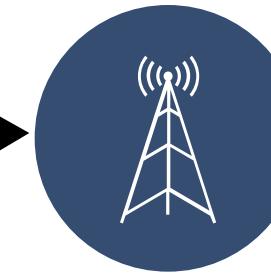

### Data Center

- Server
- Storage
- Backup System
- Virtual Machine Solution
- PAC System

### Telecommunication and Radio Solutions

- PABX
- Link Repeater Radio
- VSAT
- Analog
- IP Phone

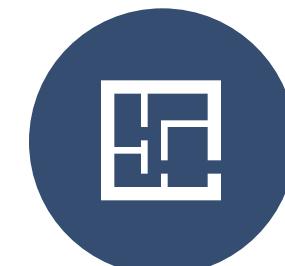

## Lighting Designer

- 3D Modeling
- Lighting Simulation
- Presentations and Videos

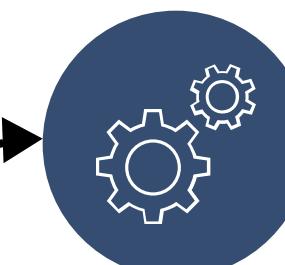

## Lighting Planner

- Lamp Specifications
- Layout of Lights
- Number of Lamps
- ROL Calculation

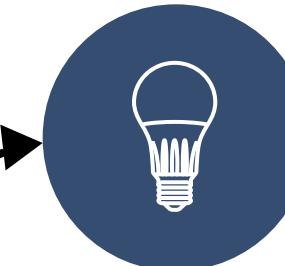

## Lighting Auditor

- Light Intensity Audit
- CCT Audit

## Lighting Maintenance & Supply

- Supervision and Troubleshooting
- Appropriate Product Replacement
- Delivery by Schedule
- Delivery to Site Location

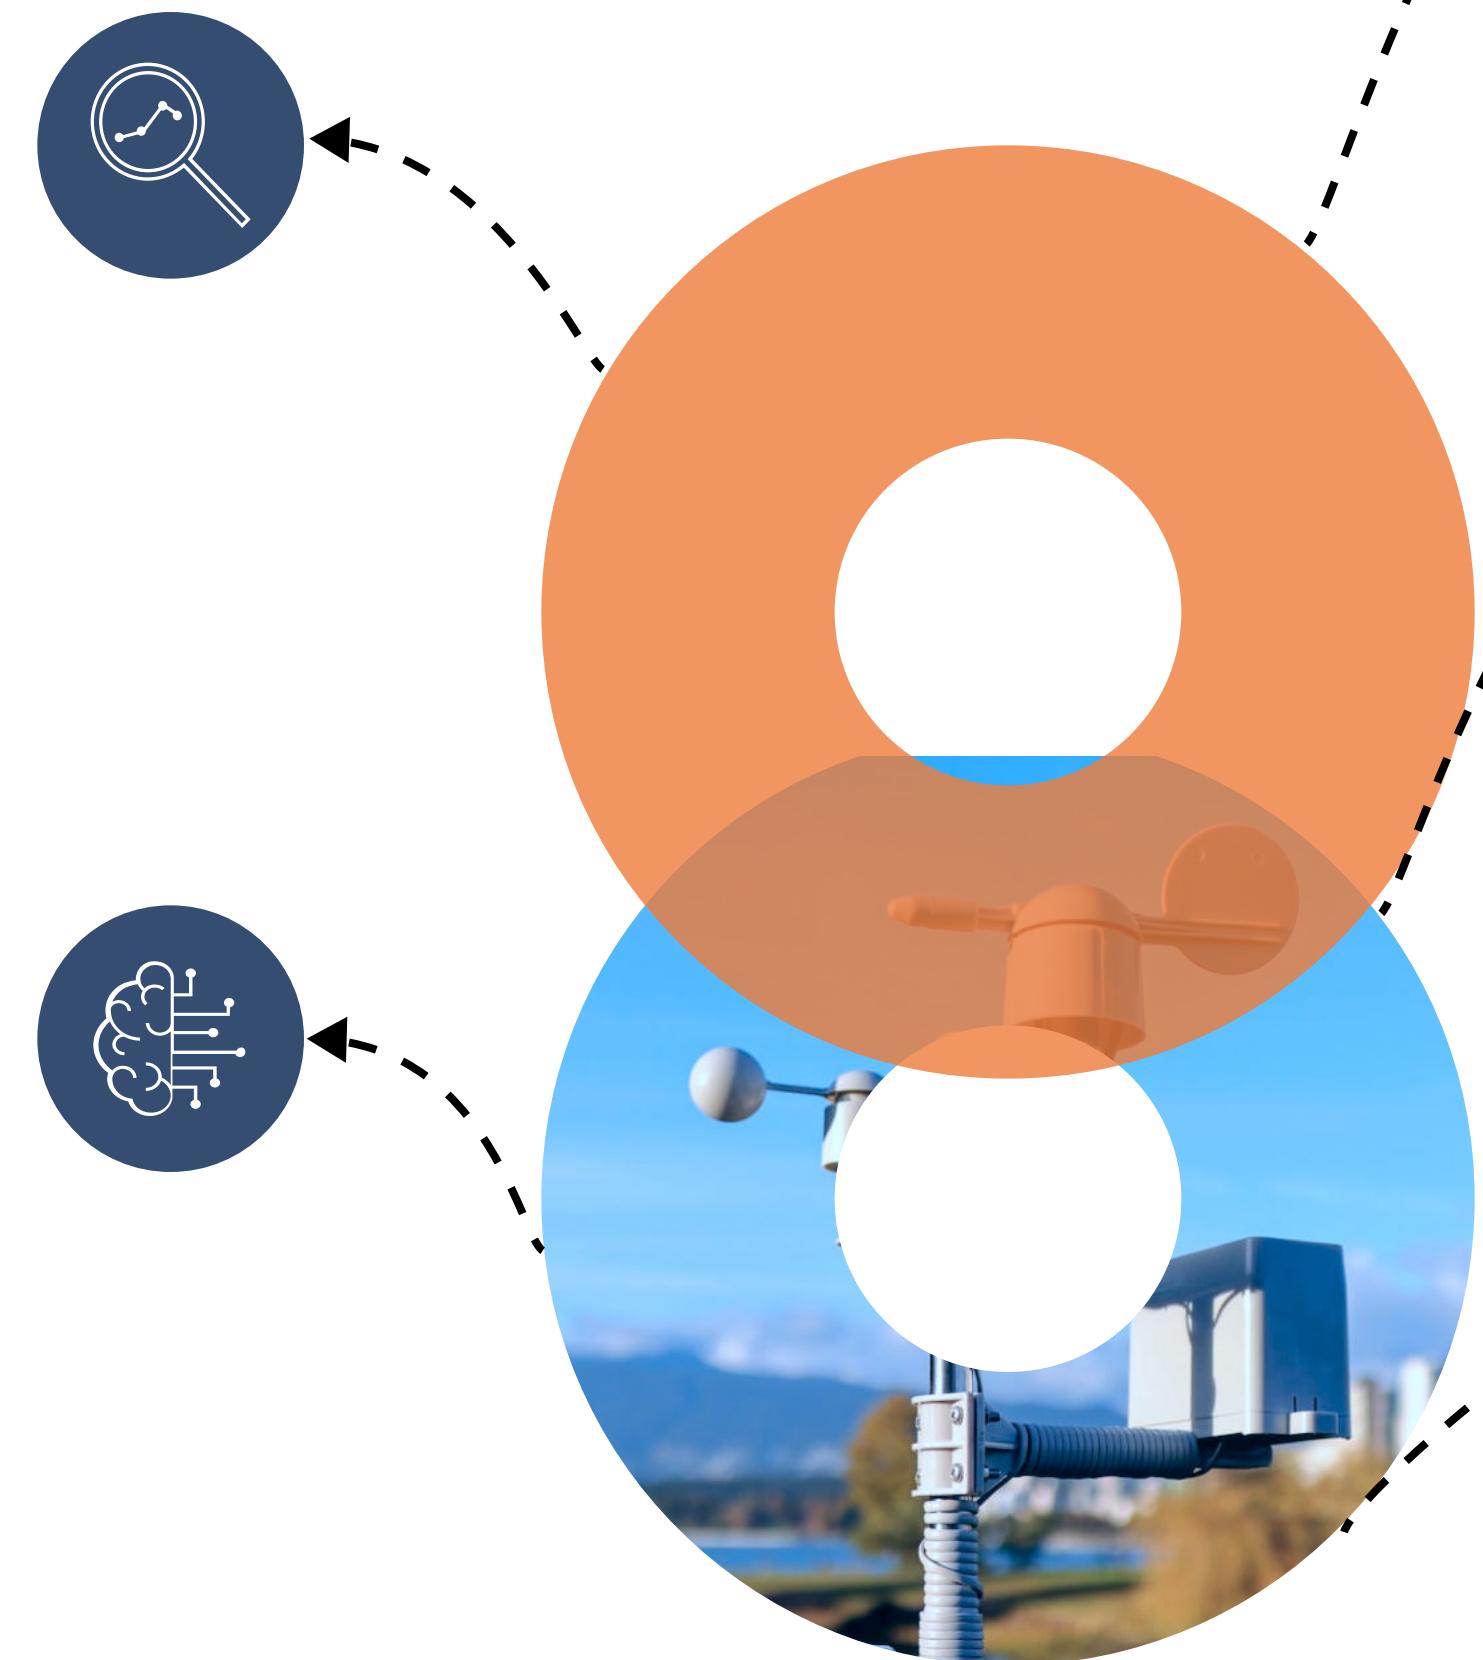

## Lighting Management System

- DALI-based Program Design Providing
- Testcomm and Programming
- Grouping Scenario

## Planning System

- Development system
- Monitoring system
- Industrial automation system

## Integrating System

- Integrations of new systems
- Integrations of existing systems
- Integrations of systems that want to be upgraded
- Various pre-define logic or API template to connect to

## Developing System

- Applications-based
- Websites-based
- Software & hardware system
- Embedded systems

## Analyzing System

- Analysis of existing systems
- Analysis of systems that want to be upgraded
- Analysis of systems to find out strengths and weaknesses

## Data Analyst

- ERP & CRM System
- Manage logistical and physical assets.
- Helps understand device connectivity pattern behavior

## HUMAN & SAFETY

Solutions

### Safety Equipment Supply

On demand, provide supplies of safety equipment with specifications

- Brady (LOTO)
- Rothoblaas
- PETZL
- KINGS
- Safety Jogger, etc

### Rope Access Services

Installation and procurement services are

- Lifeline industrial services
- Working at hard-to-reach heights

### Training & Assessment

Provide system and implementation of training system

- Integrated management system (IMS)-based training systems
- HRIS (Human Resources Information System) database
- HSE/QHSE training organizers with the BNSP/KEMENAKERTRANS RI.

### Consulting

Conducting development consulting and organizational, management, and business assistance

- Implementing HSE management systems,
- HSE plans
- Contractor safety management systems (CSMS)

## PIPING

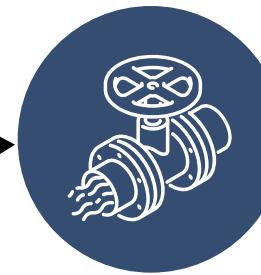

Solutions

## Engineering, Procurement & Construction

We provide services in the form of

- Design engineering
- Supply of goods
- Construction services in the development of work plans

## Operation, Maintenance & Commissioning

We also provide services related to operation and maintenance so that the performance of your mechanical equipment works perfectly.

- Maintenance
- Rejuvenation
- Mechanical commissioning

## Compressed Natural Gas Supply Provider

We also provide services for supplying natural gas for

- Households
- Business Units
- Industrial needs

## ELECTRICAL Solutions

### Electrical Planner

Plan and manufacture

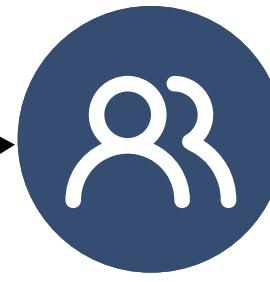

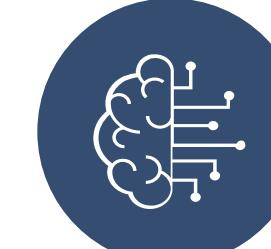

- Low-voltage electrical systems
- Low Voltage Main Distribution Panels (LVMDP)
- Main Distribution Panels (MDP)

### Electrical Installation

Serving the installation of

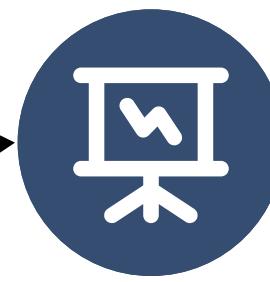

- low-voltage electrical products
- systems in accordance with the plan

### Electrical Auditor

Checking cable induction in

- Low-voltage electrical systems
- The harmony between voltage, current, and load.

### Electrical Maintenance

Provide maintenance services for

- Products
- Systems that have been installed
- When there is a problem or a replacement is needed.
